The meeting of the Arizona Colonial Dames at the North Central avenue residence of Mrs. William M. Seabury, Monday, was interesting and enthusiastic and may result in the holding of an exhibition of antique relics in Phoenix as well as having the state represented in a publication issued by the society. A letter was read from the Registrar of the Massachusetts society of Colonial Dames in regard to a book the society is to publish on American Samplers made prior to 1815 and inquiry was made if any such samplers were in Arizona that the state might be represented in the book. Anyone who owns a sampler made prior to 1815 is asked to communicate with Mrs. Seabury so a description may be forwarded the Massachusetts society as Arizona has never before been represented in any of Colonial Dame publications and it is hoped advantage may be taken of this opportunity. A plan was also discussed at the meeting relative to holding an exhibition of interesting antique relics of which there are many in Phoenix, during the latter part of April. SOCIETY EDITOR

In checking off the Lenten days society sighs happily for with Easter gladness this year comes a real reason for joyousness. The social calendar has never recorded any event that has quite taken the place of the Country club play of a year ago, but now even "Christopher Jr." gives promise of being relegated to the forgotten past and all because of a new and infinitely more clever and interesting Country club play, "Seven Days." Maitland Davies who was responsible for last season's glorious success will again be the directing spirit and fashionable folk are still speculating as to the cast. There really could not be an amateur attraction without that wonderful little actress, Miss Ruth Griffen. Although it has not been announced that she will take part everyone has decided that she must be whether or not she will remain to be seen. Dame Rumor has shown a decided fondness for A. R. Gatter and it would not be at all surprising if his name appeared on the program. Judge Kent may neglect law for a time to accept a political office. And furthermore says some one to some one else "There is a part that seems suited to good looking young Arthur Halm and he certainly would be an attractive addition to any cast."

No social function has been awaited with keener interest than that over which the Phoenix merchants will preside tomorrow afternoon and evening. The shops of the city will wear their new spring garments in honor of the Fashion Show and all Phoenix will be in attendance. The shopping districts will be crowded with sightseers eager for their first glimpse of the newest and smartest models. Clothes will play a more important part this season than ever before because of the many late social events. To more than make up for the dullness of winter are the affairs scheduled for late in the year. The morning of tennis and golf at the Country club that call for the chic "sporting" costume, the afternoons of auction that require summer silks, and smart linens as well as the dainty lingerie gown and the dances where simple frocks that are really very complicated of nets that are so much in vogue just now. The thousands of other details, hats, gloves, veils, everything in fact of interest to milady will be shown in the most attractive manner.

Quite the most amusing event of the Lenten season will be the charades at the Country club Tuesday evening. Charles McArthur and
